For the first 21 days of February, the daily average of visits to www.editoriallapaz.org is **1,889**, for a total of **39,680**. The other four sources of visits not included.

Since the afternoon of January 25, when Rita was admitted to Cleveland Clinic, most of my time has been devoted to being with her and helping her as much as I could. Including house keeping and cooking! The latter, a new science for me, which I am finding intriguing. Truthfully! All though I have been able to work little on the sites during this time, it pleases me to see that visits are, indeed, increasing from their levels in January. Again, the marvel of Internet evangelization and teaching is highlighted, for the ministries continue 24/7 whatever the circumstances of my life may be. God be praised!

Yesterday and today, aided by a walker, Rita has been moving around the house without my being close to her every step. Even preparing part of her breakfast and lunch! Jeopardizing my new title of "Chief Chef." We thank you most profoundly for your prayers and good wishes on behalf of a full recovery for her. March 1, she is to undergo a bone marrow biopsy.

With brotherly love in Christ,

Dewayne Shappley
